Recommended naming convention[1] on server:

---

[1] Recommended doesn't mean required. But name your files meaningfully even if you prefer to use a variation.

Folder = hw2
Files = band.html, recipe.html

e.g http://students.bcitwebdev.com/72you[2]/hw2/

Recommended naming convention for text file:

Text file name = homework02.txt

---

[2] Replace with your personal username, of course.
